

Greater Manchester Stroke
Operational Delivery Network

Annual Conference poster competition

Our annual conference will be on the 1st March 2018 and we will be holding a poster competition to showcase the excellent work of local stroke teams and researchers. There are three categories:

- Acute stroke care
- Inpatient rehabilitation
- Community stroke services

Abstracts will be reviewed by the network team and twelve will be asked to present at the conference, with the winners selected by a judging panel on the day. First authors of selected posters will be expected to be available to stand by their poster at some point during the morning/lunch of the conference and speak to the panel.

How to enter

The maximum word count is 370 words. Please avoid using over complicated tables, do not use graphics and use Harvard referencing format. Only one abstract per person as first author. Please indicate which category you wish to enter and include the following headings (or similar):

- Title
- Authors (Harvard format)
- Place of work and address
- Introduction
- Methods
- Results
- Conclusions

The abstract must include sufficient information to allow its evaluation by the judging panel. Expressions such as “data will be presented” or “findings will be discussed” are not acceptable and will result in automatic rejection of the abstract. The onus is on the author to check spelling, grammar and format of the submission.

Please submit your abstract by 12th January 2018 to sarah.rickard@srft.nhs.uk and successful authors will be informed by 19th January.
